

## 2-LINE DECONTAMINATION SHELTER

### Product Overview

Two line decontamination shelter for effective decontamination of mass casualties with a compact footprint in an extremely portable and lightweight package.

### Features

- Pre-fabricated Shelter design insures state of the art performance, reliability, and speed of deployment
- Integral fabric booms, pre-plumbed Quik connects and patented articulating frame reduces set-up time, maintains system integrity and increases functionality
- Curtain set divides shelter into 2 lines of 4 stations: undress, wash, rinse and redress
- Center curtain clips to the ground cloth to enhance privacy
- Internal ergonomic hand sprayers enable decontamination of non-ambulatory casualties with user directed spray (ordered separately)
- Corrosion resistant anodized aluminum frame with chemical resistant fabric provides for long life and reliability
- Interior canopy includes white, opaque skylight that provides ambient lighting and protects exterior frame from contaminants and expedites post-use cleanup
- Steel rings fixed internally to accommodate lighting

SD2-TB08-GZ

Lightweight and economical decon shelter set up by 2 people in 2 minutes

### Rapid Set-Up

- Utilizes TVI's patented articulating frame technology
- No inflation devices, poles or electricity required
- Can be quickly relocated after set-up
- Shower system easily connects to garden hose or fire hydrants

### Standard Features

- Internal fabric shower requires no installation
- Chemtex basin collects contaminated waste water
- Curtain set provides 2 lanes (male, female) of undress, wash, rinse and redress
- White canopy top provides ambient, natural light

### Shelter Specifications

- Canopy is UV stabilized, fire retardant and chemical resistant
- Shelter is constructed from non-corrosive materials
