

3-LINE DECONTAMINATION SHELTER

Product Overview

Three line decontamination shelter for effective decontamination of both ambulatory and non-ambulatory casualties within the same footprint.

Features

- Pre-fabricated Shelter design insures state of the art performance, reliability, and speed of deployment
- Integral fabric booms, pre-plumbed Quik connects and patented articulating frame reduces set-up time, maintains system integrity and increases functionality
- Curtain set with clips to connect to the ground is used to segregate male, female and non-ambulatory patients and provides undress, wash, rinse and redress stations in the ambulatory lanes
- Internal ergonomic hand sprayers enable decontamination of non-ambulatory casualties with user directed spray (ordered separately)
- Corrosion resistant anodized aluminum frame with chemical resistant fabric provides for long life and reliability
- Interior canopy includes white, opaque skylight that provides ambient lighting and protects exterior frame from contaminants and expedites post-use cleanup
- Camlok connectors allow easy plumbing connection with gloved hands

SD3-UZA08-GZ

Lightweight and economical decon shelter set up by 3 people in 3 minutes

Rapid Set-Up

- Utilizes TVI's patented articulating frame technology
- No inflation devices, poles or electricity required
- Can be quickly relocated after set-up
- Shower system easily connects to garden hose or fire hydrants

Standard Features

- Internal fabric shower requires no installation
- Chemtex basin collects contaminated waste water
- Curtain set provides 3 lanes (male, female) of undress, wash, rinse and redress
- White canopy top provides ambient, natural light

Shelter Specifications

- Canopy is UV stabilized, fire retardant and chemical resistant
- Shelter is constructed from non-corrosive materials
