

# TEMPORARY MORGUE

## Product Overview

The temporary morgue employs patented articulating frame technology to provide rapid deployment and rugged, all weather performance for cold storage of cadavers.

## Features

- Pre-fabricated Shelter design insures state of the art performance, reliability, and speed of deployment
- Exterior canopy and interior liner creates a dead air space that sufficiently insulates the shelter to provide for efficient chilling
- Large footprint provides for ample top-to-bottom and side-to-side storage of the dead
- Multiple uses include temporary morgue, command/control, equipment storage, triage and rehab
- Side doors allow access to morgue with limited loss of chilled air
- 4person deployment in under 5 minutes
- Corrosion resistant anodized aluminum frame with chemical resistant fabric provides for long life and reliability
- One piece design deploys with simple manual lifting, with no poles required

STM-JZA09

Rugged and economical morgue set up  
by 4 responders in under 5 minutes

## Rapid Set-Up

- Utilizes TVI's patented articulating frame technology
- No inflation devices, poles or electricity required
- Can be quickly relocated after set-up

## Standard Features

- Canopy and body liner equipped with HVAC and utility ports
- Chemtex basin contains contaminated waste
- Dual cladding provides thermal efficiency
- White canopy top provides ambient, natural light

## Shelter Specifications

- Canopy is UV stabilized, fire retardant and chemical resistant
- Shelter is constructed from non-corrosive materials
